

Nora Heschuk

I began my teaching career in 1991 at William Morton Collegiate in Gladstone where I taught Basic French to students from grades 9-12. In 2006, I began teaching grade 6 at Hazel M. Kellington School in Neepawa, and shortly thereafter I started teaching grades 7-12 Basic French at Neepawa Area Collegiate.

Throughout the course of my teaching career I have had opportunities to travel with my students- to France and to Quebec on numerous exchanges. I have also enjoyed working with many other dedicated and energetic teachers on writing grant applications, organizing and running French cultural days, and learning new methods for teaching French. Most recently, I have had the privilege of working with AIM language learning staff to publish a French reader for high school students.

I am privileged to be a French language and culture teacher, and like my students, I am also still a French language learner. I strive to be the best role model that I can be for my students!
